

We are hiring

During its 10-year presence in Asia, South Pole Group (SPG) has provided climate finance for more than 500 projects, leveraging EUR 10 billions of direct investments. SPG is partnering with SUSI Partners, a Swiss investment manager with a strong track record in renewable energy and energy efficiency, to create the Asia Energy Transition Fund (AETF). The AETF is a new investment fund to be deployed across South-East Asia, with SUSI responsible for asset management and SPG responsible for deal-flow and transaction management on a project level. AETF will invest in renewable energy projects and energy efficiency upgrades at existing infrastructure in Asia's emerging markets.

Within this context, we are currently looking to recruit a highly motivated and dedicated

Managing Director Asia Energy Transition Fund (100%) based in Bangkok or Jakarta

As a Managing Director, you will build a highly diversified infrastructure portfolio, which will profit from stable feed-in tariffs and power-purchase agreements, as well as guaranteed energy savings with public and private counterparts. The Fund is SRI compatible and can be counted as an impact investment and sustainable.

Tasks and responsibilities

- Identify suitable investment targets, liaise with asset owners and finance providers with support from our local teams
- Structure term sheets and investment agreements and manage transactions
- Supervise technical, financial and legal due diligence processes of investment targets, and contract relevant service providers
- Liaise with AETF's investment committee, and participate in IC meetings and calls
- Ensure surveillance of investments portfolio
- Manage ongoing relations with IC, investors and finance providers
- Manage contracts and supervise controlling and regular reporting of portfolio

Your profile

- University degree in Engineering or Finance
- Minimum 3 years experience in executing renewable energy investment transaction or a minimum 7 years experience in executing other relevant investment transactions, in at least two South-East Asian countries
- Proven track-record with deals execution
- Sound legal and commercial understanding, entrepreneurial spirit
- Proven track record in renewable energies and/or energy efficiency
- Very good network among relevant stakeholders in South-East Asia
- Able to demonstrate ability to generate project deal-flow
- Excellent planning skills
- Self-driven with a strong urge to take leadership
- Willingness to travel within South-East Asia
- Excellent communication skills in English; Thai or other South-East Asian languages are a plus

We offer

- We offer a fixed salary, plus direct participation in the success of the AETF
- Work in a growing global company with a real commitment to sustainability and fighting climate change
- Excellent team spirit
