

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole Group is an energetic, global company offering comprehensive sustainability solutions and services. With offices spanning all six continents, we strive to create a sustainable society and economy that positively impacts our climate, ecosystems and communities. With our solutions we inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Junior Environmental Data Analyst, Water stewardship (50-100%) based in Mexico City, Mexico

In this position, you will help us tackle water problems globally by scoring corporate disclosures on water for our scoring partner, a worldwide highly recognised organisation specialised in company disclosure. You will analyse companies' questionnaires and determine their level water stewardship following a methodology. You will have regular exchange with the rest of the scoring team to ensure the methodology is followed consistently, and you will also revise quality checks of your peers' scores. Through this 2.5 months role, you will get an understanding of the current state of play in corporate water stewardship.

Tasks and responsibilities

- Read standardised reports provided by our partners, in which companies provide their answers to a series of questions related to water stewardship
- Analyse the provided reports following the adopted methodology
- Determine a final score to each company on their water stewardship
- Apply quality checks of peers' scores
- Possibility to support with South Pole Group's (SPG) reports and proposals language checks (English and Spanish)

Your profile

- A university degree (Bachelor's or Master's degree recently completed or in the last semesters of studies) ideally in Engineering, Economics, Journalism or Literature
- Excellent English and Spanish skills both in reading and writing
- Strong analytical skills
- Accurate working style, with a great attention to detail
- Independent and pro-active worker, able to seek help if needed
- Pragmatic, able to take decisions and reliable
- Consistent and not afraid of repetitive work
- Being knowledgeable in corporate water stewardship is an advantage but not a must
- Previous work experience will be an advantage

We offer

- Collaborating in a challenging and exciting global company with a real purpose
- Getting an understanding of current state of play in corporate water stewardship
- Working with highly dedicated and motivated experts of SPG's dynamic team
- Excellent team spirit
- The opportunity to prove yourself and have future opportunities to get involved with SPG
