

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole Group is an energetic, global company offering comprehensive sustainability solutions and services. With offices spanning all six continents, we strive to create a sustainable society and economy that positively impacts our climate, ecosystems and communities. With our solutions we inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Consultant, Climate Policy and Weather Modelling (80-100%) based in Zurich, Stockholm or London

In this position you will be part of our Public Advisory team. South Pole Group (SPG) advises the public sector on policies, financial instruments and carbon markets that catalyse action for climate change mitigation, renewable energy and the UN Sustainable Development Goals. Your main responsibility will be to conduct analysis and consult cities and governments on the CO₂ and air pollution impact of the transport sector.

Tasks and responsibilities

- Conduct analysis of CO₂ and air pollution impact of the transport sector, based on weather models and different data sources
- Manage projects (timeline, budget, quality of deliverables)
- Write reports for public, and potentially private, sector clients in the area of climate policy and sustainable development, including policy recommendations
- Support colleagues and clients with knowledge regarding the scientific basis of climate change & local air pollution

Your profile

- Advanced university degree, ideally in Atmospheric Science or Engineering
- At least 1 year of demonstrated experience in atmospheric modelling
- Strong analytical skills
- Excellent interpersonal and communication skills
- Ability to act as a team member in a multicultural environment
- Ability to prioritise tasks and meet deadlines
- Good working knowledge of Microsoft Office package and programming softwares such as Python
- Diligent, reliable, proactive and self-sufficient but collaborative approach to work
- Excellent oral and written command of English; proficiency in German is a plus

We offer

- Excellent team spirit
- Be part of a growing and multicultural company with a real purpose
- Work autonomously as well as within a large and international team of experts

Please apply

If you are interested in joining a young and international team looking to make a difference to the world we would be happy to hear from you! Please send your cover letter and CV directly through our [website](#).
