

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. With offices spanning all six continents, we strive to create a sustainable society and economy that positively impacts our climate, ecosystems and communities. With our solutions we inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Engagement Manager Carbon Pricing (100%) based in London, Mexico City, Bangkok or Amsterdam

In this role you will manage the full portfolio of public advisory engagements related to carbon pricing from sourcing to implementation. You will also contribute to South Pole's strategy and service offering in the field of carbon pricing.

This challenging position requires an enthusiastic and dynamic sustainability professional with relevant experience in consultancy and business development in the public sector, as well as proven expertise in carbon pricing and carbon markets and in-depth know-how in international climate policy under the UNFCCC and national/sub-national climate policy/pricing instruments and financial mechanisms

Tasks and responsibilities

- **First Priority**
Management of a portfolio of public advisory engagements related to carbon pricing, including:
Design, planning and implementation of carbon pricing public advisory projects
Technical leadership in the implementation of advisory projects and technical reviews of projects managed by other colleagues
Financial oversight of advisory projects
Management of project teams for specific advisory projects, including South Pole consultants in all six continents and external partners, ensuring high quality outputs and cost efficiency
- **Second Priority**
Business development of advisory engagements in the public sector, with a specific focus on carbon pricing
Relationship management with public advisory clients and strategic partners, including the acquisition of new clients and the development of new strategic partnerships
Contribution to South Pole's strategy and service offering in the field of carbon pricing
Topics of engagement may include: non-market and market-based carbon pricing and climate policy instruments such as Emission Trading Systems (ETS) or carbon offset schemes, implementation and financing of Nationally Determined Contributions (NDCs) under the Paris Agreement, Measuring, Reporting & Verification (MRV) systems, and Climate Finance

Your profile

- A minimum Master's degree, ideally in Environmental Sciences, Public Policy, Finance, Economics or related disciplines
At least 5-7 years of relevant work experience in consultancy and business development in the public sector
Proven expertise in carbon pricing and carbon markets. In-depth know-how in international climate policy under the UNFCCC, and national/sub-national climate policy/pricing instruments and financial mechanisms
Commercial skills and good business sense to be able to identify and seize opportunities in a challenging and competitive market environment
Experience in team management, ideally within an international and multicultural context
Strong network with international finance institutions (IFIs), development agencies, governments and other public or private donors/stakeholders
Track record in developing climate change mitigation projects, programs or instruments across sectors and technologies would be an asset
Excellent oral and written command of English, professional proficiency in Spanish, Chinese, Korean, French, German or other languages associated with major carbon pricing system locations is of advantage

We offer

- Excellent team spirit
 - Be part of a growing and multi-cultural company
 - Work autonomously as well as within a large and international team of sustainability passionate professionals

Please apply

If you are interested in joining a young and international team looking to make a difference to the world we would be happy to hear from you! **Women are especially encouraged to apply.** Please send your application in English directly through our [website](#).
