

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. With offices spanning all six continents, we strive to create a sustainable society and economy that positively impacts our climate, ecosystems and communities. With our solutions we inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Management Accountant (100%) based in London or Amsterdam

South Pole is growing and we have an amazing opportunity for a talented Management Accountant to join us and help shape the future of the world's climate change crisis. The key purpose of this role is to partner with our business line managers to make critical commercial decisions on the operation and growth of our business. You will provide reporting, financial analysis and insight into business performance and help us to understand trends, opportunities and areas we can improve on. If you are a driven and motivated finance professional looking for a challenge in a growing company on the front line of the fight against climate change, we're looking for you.

Tasks and responsibilities

- Analyse data and coordinate with the Senior Management to drive the overall controlling on a business group level including variance analysis on both income and cost
- Collaborate actively within the project and business line controlling
- Carry over liquidity planning for the whole business group
- Lead the group budget process through coordination with the Management and other stakeholders
- Work closely with our headquarters in Zurich to maintain and further advance strong processes to support timely reporting
- Identify and drive initiatives to further leverage financial systems, streamline process flows and create systematic methods for efficient data processing, reporting and analysis of past history, current positions and predictive future performance

Your profile

- Bachelor's degree in Accounting, Controlling, Finance or an equivalent education is essential
- International accounting experience and proven working experience as a financial controller would be beneficial
- Experience in a small, growing and international company would be an advantage
- A self starter with the ability to develop solutions to challenging issues
- Financial modelling skills are an advantage
- Strong analytical and problem solving skills
- Solid organisational skills and attention to detail
- Outstanding conceptual and process design skills
- Management or team leadership experience would be beneficial
- High-energy, flexible and responsive work style; ability to work in a fast-paced environment
- Excellent written and oral command of English; further languages are considered a plus

- Excellent IT skills, especially in MS Excel, knowledge and interest in database management
- National, or holder of a valid work visa in host country

We offer

- Be part of a growing and multicultural company with a real purpose
- Excellent team spirit; work with dedicated and enthusiastic people
- Opportunity to grow with the company and take more responsibilities

Please apply
