

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. With offices spanning all six continents, we strive to create a sustainable society and economy that positively impacts our climate, ecosystems and communities. With our solutions we inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Consultant (100%) Mexico City, Mexico

As a Consultant at South Pole, you will focus on the successful and efficient implementation of our mandates and on the delivery of high-quality consultancy reports and program management of projects on climate change mitigation solutions. You will take ownership for all proposals and mandates where you are assigned as a project/proposal manager. As the first contact for your assigned proposals or projects, you will be responsible for the execution of all tasks planned, as well as the completion of all deliverables to be submitted to the client. In addition, you will ensure that proposals and deliverables are prepared and finalised and that you meet the quality standards required by South Pole and the client.

Tasks and responsibilities

- Support the design, planning and implementation of public advisory and corporate projects, including site visits, attending meetings and writing reports
- Management of small internal project teams for specific consultancy projects
- Support the Account Management team with business development activities in the public and corporate sectors in Latam
- Topics of engagement may include: Energy & Climate Finance, Sustainable Cities, Carbon Market Instruments, implementation and financing of Climate Policies, GHG accounting and disclosure, Science Based Targets (SBTs), risk assessment and TCFD, materiality assessment, energy efficiency, Life Cycle Analysis (LCA), Sustainable Development Goals, renewable energy strategy and water and forest stewardship

Your profile

- Minimum Bachelor's degree, ideally in Environmental Sciences, Engineering, Finance, Economics or related disciplines, a Master's degree is of advantage
- At least 2 years of relevant work experience related to carbon markets, climate policy, climate finance and/or corporate sustainability
- Excellent oral and written command of Spanish and English is essential
- Advanced skills in MS Word, Excel and PowerPoint is essential and proficiency in further data or modeling software is desirable
- Demonstrable interest in working on climate change mitigation projects, programs or instruments across sectors and technologies, especially in Latam countries
- Able to work on several projects at the same time and work independently
- Experience working in small teams, ideally within an international and multicultural context

We offer

- Excellent team spirit
- Be part of a growing and multicultural company with 220 staff in 18 offices worldwide
- Work autonomously as well as within a large and international team of sustainability passionate professionals

Please apply

If you are interested in joining a young and international team looking to make a difference to the world we would be happy to hear from you! Please send your application in English directly through our [website](#). We will only review CVs sent in English. If you have any questions regarding this vacancy, please contact Mr. Jairo Gomez on +57 3105879216 or on jobs@southpole.com.
