

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. With offices spanning all six continents, we strive to create a sustainable society and economy that positively impacts our climate, ecosystems and communities. With our solutions we inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Senior Consultant Sustainable Supply Chains (100%) based in London or Mexico City

Due to a successful 2018 and increased demand, South Pole is expanding its Sustainable Supply Chain practice and has a great opportunity for a Senior Consultant to join the team. This is a fantastic opportunity for someone with expertise in and a passion for Sustainable Supply Chains who wants to take their career to the next level and work in busy, fast paced environment with a highly experienced team and company purely focused on the fight against climate change.

You will work with companies with agricultural supply chains where we're engaged to support them taking concrete action to manage and mitigate their impact on climate, water and forest resources. Assignments will typically include development of supply chain strategies in order to achieve climate targets through emission reductions and insetting, improving water stewardship or achieving deforestation free supply chains.

With a renowned track record for implementing sustainability activities in more than 25 countries and extensive experience with consultancy services, South Pole is well positioned to tackle global sustainability challenges, today and tomorrow. If you are an enthusiastic and dynamic professional with relevant experience in sustainability and supply chains, then we are looking for you!

Tasks and responsibilities

- Managing the deliveries of corporate consulting mandates on sustainable supply chains and agriculture, interacting closely with our clients
- Plan mandates with necessary know-how and skill set to ensure the most efficient and highest quality implementation
