

## We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

### **Senior Consultant Climate Policy (100%)** based in Mexico City, Mexico or Bogotá D.C., Colombia

As part of the Consultancy team, you will focus on the successful and efficient implementation of our projects for Latam and our international clients in the sustainability field. As a Senior Consultant, you will lead the development of proposals and participate in business development activities for South Pole. You will work independently and execute tasks related to the development and delivery of accurate, timely, and high quality products and services. You will work on multiple projects, liaise with colleagues and participate in client/partner meetings and communications.

#### Tasks and responsibilities

- Planning, coordination and management of consultancy mandates for public sector clients related to Climate Policy topics
- Delivering high-quality proposals, consultancy reports and other deliverables (e.g. presentations, blogs, workshop materials) in English and Spanish as required by clients
- Management of small internal project teams for specific consultancy projects
- Design project work plans, schedules, budgets and delivery of financial and technical status reports
- Financial and administrative oversight of advisory mandates
- Liaise with partners and clients on specific consultancy mandates
- Support business development activities in the region

#### Your profile

- Minimum Bachelor's, ideally in Environmental Sciences, Engineering, Finance, Economics. Political Sciences or related disciplines, a Master's degree is desirable
- At least 5 years of relevant work experience in consulting
- Excellent oral and written command of English is essential
- Experience working in small teams, ideally within an international and multicultural context
- Work experience related to nature-based solutions, carbon markets, climate policy, and/or climate finance is ideal
- Demonstrable interest in working on climate change mitigation projects, programs or instruments across sectors and technologies

#### We offer

- Excellent team spirit
- Be part of a growing and multicultural company
- Work experience in a leading sustainability consultancy firm with the opportunity to work with a wide range of

experts from a broad range of sustainability fields

**Please apply**
