

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Senior Consultant Sustainable Finance (100%) based in Mexico City, Mexico or Bogotá D.C., Colombia

As part of the Consultancy & Services team, you will focus on the successful and efficient implementation of our projects for Latin American and international clients in the sustainable finance field. As a Senior Consultant, you will lead the development of proposals and participate in business development activities for South Pole. You will work independently and execute tasks related to the development and delivery of accurate, timely, and high quality products and services. You will work on multiple projects, liaise with colleagues and participate in client/partner meetings and communications

Tasks and responsibilities

- Planning, coordination and management of consultancy mandates for public sector clients related to Sustainable Finance topics
- Delivering high-quality proposals, consultancy reports and other deliverables (e.g. presentations, blogs, workshop materials) in English and Spanish as required by clients
- Where required, provide technical leadership in the implementation of advisory projects and technical reviews of projects managed by other colleagues
- Design project work plans, schedules, budgets and delivery of financial and technical status reports
- Financial and administrative oversight of advisory mandates
- Leading of assignment-specific, international teams composed of internal and external experts and organisations
- Liaise with partners and clients on specific consultancy mandates
- Supporting the acquisition of new mandates through networking with local and international stakeholders in the country and the region, as well as the preparation of proposals
- Participation in public and client-facing events and meetings, speak about relevant topics and represent South Pole and its services (in English and in Spanish)
- Development of concept and methodologies for new consulting opportunities within the topic of Sustainable Finance
- Support the development of South Pole's strategy and service offering in the field of Sustainable Finance Advisory

Your profile

- Minimum a Masters degree in Public Policy, Finance, Environmental Engineering, Environmental Science or a related discipline
- At least 6 years of relevant work experience, ideally with consultancy with the public sector in the area of climate change and sustainable development
- Sound understanding of Green/Sustainable Finance both nationally and internationally

- Awareness of current national and international policy developments with regard to climate change and sustainable development
- Proven network with government, development finance institutions, development agencies, and other public or private donors/stakeholders, particularly in Latin America
- Excellent oral and written command of English and Spanish; other international languages, particularly Portuguese are of advantage
- Commercial skills and good business sense to be able to identify and seize opportunities in a challenging and competitive market environment
- Extensive coordination, project management, proposal writing and presentation skills
- Diligent, reliable and independent approach to work and ability to act as a team leader in a multicultural environment
- Experience in working with and implementing activities with large multilateral funding mechanism and/or multi-stakeholder platforms are of advantage

We offer

- Work in a growing global profit for purpose company with a real commitment to sustainability and fighting climate change
- Excellent team spirit, work within a large and international team of sustainability passionate professionals
- The opportunity to work with a culturally diverse team based around the world

Please apply
