

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Environmental Markets Analyst (100%) based in London, Amsterdam or Berlin

South Pole is looking for an ambitious and high performing analyst to join its carbon markets team. This role is entirely focused on carbon market development and growth, including compliance and voluntary carbon markets. The purpose of this role is to work with South Pole's advisory and projects team in consultancy opportunities on carbon offset design and other environmental project design. You will work with our carbon project managers and advisors to respond to new requests for bespoke carbon offset projects for our clients. This is a client facing role, where you will also coordinate with relevant teams based in our Latin American and Asian offices. If you want to join a high performing and growing carbon market advisory team as its key analyst, then this is the role for you.

Tasks and responsibilities

- Analyse and compile carbon market data and policy information
- Provide reports, presentations and recommendations with explanation of findings to inform business decisions and identify new opportunities.
- Contribute to business strategy and leadership discussions on new business opportunities
- Lead and contribute to the planning and implementation of complex carbon market advisory mandates

Your profile

- University degree, ideally in Environmental Sciences, Environmental Engineering, Energy Engineering, Economics, or sustainability-related disciplines
- At least 3 years of experience in a carbon market advisory or analysis role
- 3 to 5 years overall experience in analysis
- In-depth understanding of carbon markets and environmental policy
- Ability to come up with solutions to complex problems
- Ability to manage time, prioritise tasks and work independently
- Excellent communication skills, both written and oral in English
- Experience working with international teams
- National or holder of a valid work permit

We offer

- Work in a growing global profit for purpose company with a real commitment to sustainability and fighting climate change
- Attractive career pathway and excellent team spirit
- The opportunity to work with professional experts all around the world

Please apply

If you are interested in joining a young and international team looking to make a difference to the world we would be happy to hear from you! Please send your cover letter and CV directly through our [website](#). If you have any questions regarding this vacancy, please contact us on jobs@southpole.com.
