

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Corporate Sustainability Consultant (100%) based in London, England

As part of the Corporate Sustainability team, you will focus on the delivery of high quality consultancy advice on climate change mitigation solutions to the corporate sector, and be responsible for the management of project teams. You will also lead the development of proposals and participate in business development activities and new service creation.

Tasks and responsibilities

- Implement and manage project consulting mandates for international clients
- Plan consulting mandates with necessary know-how and skill set to ensure the implementation is the most efficient and of the highest quality
- Develop proposals with the responsible Key Account Managers, and senior consulting staff
- Interact with and build relationships with clients and manage the delivery of corporate consulting mandates on corporate climate risks and opportunities
- Support senior consulting staff and our Key Account Management team to further develop thought leadership, services and marketing materials, to develop our corporate offerings further
- Actively collaborating with other members of the consultancy team
- Topic of engagement may include: GHG accounting and disclosure, climate change mitigation, Science Based Targets (SBTs), risk assessment and TCFD, materiality assessment, energy efficiency, Life Cycle Analysis (LCA), Sustainable Development Goals (SDGs), renewable energy strategy, etc.

Your profile

- A university degree, preferably in Environmental Sciences, Environmental Engineering, Energy Engineering, Economics or sustainability-related disciplines
- At least 4 years of relevant work experience in the corporate sector
- Sound understanding of environmental sustainability challenges in multinational companies
- Specific consultancy experiences in: sustainability and corporate risks; consultancy for corporate clients, particularly in topics related to GHG accounting, scope three emissions and agricultural emissions; and developing climate change solutions
- Commercial skills and good business sense to be able to identify and seize opportunities in a challenging and competitive market environment
- Hands-on experience in sustainability, GHG management, adaptation, and/or change management is desirable
- Excellent oral and written skills in English and German, any other additional language(s) is considered a plus

We offer

- Excellent team spirit within the world's leading independent sustainability company
- Be part of a growing and multicultural company
- The opportunity to work with a culturally diverse team based around the world

Please apply
