

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Head of Environmental Impact Accounting (100%) based in Amsterdam, London, Stockholm, Zurich, Berlin or Frankfurt

We are very excited to announce that we are looking for an inspiring and passionate Senior Consultant and thought leader to unleash the full power of our existing GHG accounting, Plastics and Water Footprint team and continue to build on our market successes for the years ahead.

As part of the global consultancy unit, you will lead the Footprinting practice, being responsible for assuring efficient implementation and thematic offering/strategy development. As a Senior Consultant, you will focus on the delivery of high quality consultancy advice on climate change mitigation solutions to the corporate sector, and be responsible for the management of project teams. You will also lead the development of proposals and participate in business development activities and new service creation. You will take responsibility for the quality and the commercial viability of the engagements and help South Pole remain a national and international leading provider of sustainability solutions.

Tasks and responsibilities

- Lead the planning, management and execution of consulting mandates with necessary know-how and skill set to ensure the most efficient and highest quality implementation
- As a senior expert, provide supervision, guidance and technical leadership in international consulting mandates
- Lead and directly manage small consultant teams
- Set up, manage and develop processes and frameworks within GHG accounting, Plastics Footprinting and Water Footprint, ensuring aligned methodology and high standard of deliverables in line with international standards in South Pole across the globe
- Create and manage information materials on the footprinting services for the Key Account Management and BD teams
- Lead and initiate initiatives in order to improve GHG accounting within South Pole
- Act as an interface towards other products lines, marketing, Head of Operations etc, representing the Footprinting practice
- Accommodate on-boarding of new team members - e.g. arrange standard footprinting training plans and keep updated training material with you
- Support Key Account Managers and regional leads in team composition as well as technical topics on GHG accounting
- Responsibility for leading the technical content of the Climate Neutral labels standards
- Participate in business strategy and leadership relevant internal discussions to well position our corporate

consulting activities within South Pole's overall business and offering

- Manage the practice budgets and analyse its financial results
- Topics of consulting mandates may include: GHG accounting and disclosure, Plastics Footprint, Water Footprint

Your profile

- A university degree, ideally in Environmental Sciences or Engineering, Business Management, Economics or other sustainability or business-related disciplines
- At least 7 years of relevant work experience in the corporate sector at least partly in corporate consulting
- Sound understanding of environmental sustainability challenges in multinational companies
- Business development and commercial skills to be able to identify and seize opportunities in a challenging and competitive market environment
- Leadership and strategic management experience
- Specific consultancy experience in: consultancy for corporate clients, particularly in topics related to sustainability, such as GHG footprinting, advisory and strategy development, risk and opportunities assessment, carbon management and disclosure, energy efficiency / renewable energy strategy, plastics etc; driving change within corporates and through the value chain and; communication to senior decision makers (such as C-Suite) and across a range of stakeholders
- Experienced project manager in a multi-stakeholder and multi-geographies/international context
- Practical experience in other sustainability and CSR topics is desirable
- Proven knowledge and network in the relevant fields and region
- Excellent oral and written skills in English

We offer

- Excellent team spirit with fun and supportive colleagues
- Be part of a dynamic, growing and multicultural company
- Work autonomously as well as within an international team
