

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Senior Consultant Land & Water (100%) based in Jakarta, Bangkok, Singapore

In this role you will focus on the delivery of high quality consultancy advice on climate change mitigation solutions to the corporate sector, and be responsible for the management of project teams. In this position, you will also lead the development of proposals and participate in business development activities and new service creation. You will assist in upholding the quality and the commercial viability of the engagements and help South Pole remain a national and international leading provider of sustainability solutions. You will particularly work with companies with agricultural supply chains in the global south, where we support clients to take concrete action in order to manage and mitigate their impact on climate, water and forest resources. Some of the assignments may include development of supply chain strategies in order to achieve climate targets through emission reductions and insetting, improve water stewardship or achieve deforestation free supply chains.

Tasks and responsibilities

- Lead the planning, management and execution of consulting mandates on sustainable supply chains and agriculture with necessary know-how and skill set to ensure the most efficient and highest quality implementation
- As a senior expert, provide supervision, guidance and technical leadership in international and local consulting mandates
- Develop new consulting business opportunities in the corporate sector related to climate change, forests and water, and closely collaborate with the Key Account Management Team
- Interact with and build relationships with clients and contribute to the successful winning and delivery of corporate consulting mandates
- Build a strong network with relevant stakeholders in South East Asia such as local governments, corporates, NGOs to ensure the successful implementation of projects in the region
- Lead and directly manage small consultant teams

Your profile

- A university degree, ideally in Environmental Sciences or Engineering, Business Management, Economics or other sustainability or business-related disciplines
- Relevant work experience in the corporate sector at least partly in corporate consulting (the expectation is at least 6 years)
- Experience working with stakeholders in South East Asia, preferably Indonesia and a network with local government, corporates and/or NGOs
- Sound understanding of environmental sustainability challenges in multinational companies especially with the

integration of sustainability in supply chains and agriculture

- Experience doing fieldwork and coordinating field projects related to forest, water and climate change in agricultural supply chains in developing countries
- Commercial skills and good business sense to be able to identify and seize opportunities in a challenging and competitive market environment
- Experience in monitoring and quantification of environmental impacts along the supply chain on climate, water and forests
- Practical experience in sustainable procurement, change management and sustainability strategy development is desirable
- Specific consultancy experience with corporate clients, particularly in topics related to sustainability and corporate supply chain risks with particular focus on climate, water and forests in agricultural supply chains
- Experienced project manager in an international context
- Excellent oral and written skills in English and Bahasa Indonesia

We offer

- Work in a growing global profit for purpose company with a real commitment to sustainability and fighting climate change
- Excellent team spirit, work within a large and international team of sustainability passionate professionals
- The opportunity to work with a culturally diverse team based around the world

Please apply
