

## We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

### **Junior Consultant Corporate Sustainability(100%) based in Sydney or Melbourne, Australia**

Are you passionate about climate change and are you at the start of your career? We are looking for a Junior Consultant Corporate Sustainability to join our growing company. In this role you will support the delivery of high quality consultancy advice on climate change mitigation solutions to the corporate sector. You will also support the development of proposals by working with colleagues based in different locations. If you are a highly motivated young professional with excellent analytical and communication skills, then we are looking for you!

#### Tasks and responsibilities

- Support the implementation of mandates for international clients
- Support the development of proposals with the responsible key account managers and senior consulting staff
- Interact with and build relationships with clients and manage the delivery of corporate consulting mandates on renewable energy solutions
- Interact closely with our international internal team of consultants
- Support business development through desk research and development of materials for sharing with possible clients and partners
- Topics of engagement may include: GHG accounting and disclosure, climate change mitigation, Science Based Targets (SBTs), risk assessment and TCFD, materiality assessment, energy efficiency, Life Cycle Analysis (LCA), Sustainable Development Goals (SDGs), renewable energy strategy and others

#### Your profile

- University Degree in a sustainability-related field
- Minimum 6 months of work experience in sustainability consulting or related fields
- Ability to conduct research tasks, analyse and summarise data
- Ability to create high quality written documents (proposals and deliverables) in English
- Strong analytical experience
- Some knowledge of potential clients, collaborators or other relevant stakeholders
- Excellent interpersonal and communication skills
- Good working knowledge of all Microsoft Office applications
- Diligent, reliable, and proactive and self-sufficient but collaborative approach to work

### We offer

- Work in a growing global profit for purpose company with a real commitment to sustainability and fighting climate change
- Excellent team spirit, work within a large and international team of sustainability passionate professionals
- The opportunity to work with and support a culturally diverse team based around the world

### Please apply

If you are interested in joining a young and international team looking to make a difference to the world we would be happy to hear from you! Please send your cover letter and CV directly through our [website](#). If you have any questions regarding this vacancy, please contact us on [jobs@southpole.com](mailto:jobs@southpole.com).
