

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Renewable Energy Solutions Consultant (100%) based in Mexico City

As part of the Renewable Energy Services team within the Consultancy & Services Unit, you will focus on the delivery of high quality consultancy advice on renewable energy solutions to the corporate sector, and be responsible for the management of small project teams. As a Consultant, you will also lead the development of proposals and participate in business development activities. This is a fast growing and dynamic business area with global market potential.

Tasks and responsibilities

- Plan consulting mandates with necessary know-how and skill set to ensure the most efficient and highest quality implementation
- Develop proposals with the responsible key account managers and senior consulting staff
- Interact with and build relationships with clients and manage the delivery of corporate consulting mandates on renewable energy solutions
- Support senior consulting staff and our Key Account Management team in business development in the corporate sector
- Interact closely with our international internal team of consultants
- Topics of engagement may include: Global renewable energy strategies, RE100 roadmaps, energy attribute certificates, green tariffs, corporate PPAs, on-site, RE100 compliance and CDP/RE100 reporting.

Your profile

- A university degree, ideally in Environmental Sciences, Environmental Engineering, Energy Engineering, Renewable Energy Policy, Economics or sustainability/energy-related disciplines
- At least 4 years of relevant work experience in the corporate sector at least partly in corporate consulting
- Sound understanding of renewable energy challenges in multinational companies
- Specific consultancy experience in developing renewable energy strategies
- Experience in advisory on corporate PPAs and EACs markets would be a strong advantage
- Experienced project manager in a multi-stakeholder and multi-geographies/international context
- Commercial skills and good business sense to be able to identify and seize opportunities in a challenging and competitive market environment
- Proven knowledge and network in the relevant fields
- Advanced skills in MS Word, Excel and PowerPoint
- Excellent oral and written skills both in English and Spanish

We offer

- Excellent team spirit
- Be part of a growing and multicultural company
- Work experience in a leading sustainability consultancy firm with the opportunity to work with a wide range of experts from a broad range of sustainability fields
