

We are hiring

Would you like to be part of our dynamic, global and growing team? South Pole is an energetic, global company offering comprehensive sustainability solutions and services. South Pole acts today 'for a better tomorrow'. With offices all around the globe, we accelerate the transition to a climate-smart society. Our vision is "Climate Action for All": We inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated

Corporate Sustainability Consultant (100%) based in Mexico City, Mexico

As a Corporate Sustainability Consultant, you will focus on the delivery of high quality consultancy advice on climate change mitigation solutions to the corporate sector for Mexican and international clients. You will be responsible for the management of small project teams and lead the development of proposals and participate in business development activities and new service creation. This is a fast growing and dynamic business area and we are looking for someone who is eager to help the company to further strengthen the position in the market.

Tasks and responsibilities

- Implement and project manage consulting mandates for Mexican and international clients
- Plan consulting mandates with necessary know-how and skill set to ensure the most efficient and highest quality implementation
- Develop proposals with the responsible key account managers and senior consulting staff
- Interact with and build relationships with clients and manage the delivery of corporate consulting mandates on corporate climate risks and opportunities
- Support senior consulting staff and our key account management team in business development in the corporate sector
- Support senior consulting staff and key account management team to further develop thought leadership, services and marketing materials, to develop further our corporate offerings
- Interact closely with our international internal team of consultants
- Topics of engagement may include: GHG accounting and disclosure, climate change mitigation, Science Based Targets (SBTs), risk assessment and TCFD, materiality assessment, energy efficiency, Life Cycle Analysis (LCA), Sustainable Development Goals (SDGs) and renewable energy strategy

Your profile

- A university degree, ideally in Environmental Sciences, Environmental Engineering, Energy Engineering, Economics or sustainability-related disciplines
- At least 2 years of relevant work experience in the corporate sector at least partly in corporate consulting
- Sound understanding of environmental sustainability challenges in multinational companies
- Specific consultancy experience in:
 - sustainability and corporate risks
 - consultancy for corporate clients, particularly in topics related to GHG accounting, scope 3 emissions and agricultural emissions

- o developing climate change solutions
- Commercial skills and good business sense to be able to identify and seize opportunities in a challenging and competitive market environment
- Practical experience in sustainability strategy, GHG management, adaptation, change management is desirable
- Excellent oral and written skills both English and Spanish, other languages are a plus

We offer

- Excellent team spirit within the world's leading independent sustainability company
- Be part of a growing and multicultural company
- Work autonomously as well as within a large and international team
