

We are hiring

Would you like to be part of our dynamic, global, and growing team? South Pole Group is an energetic, global company offering comprehensive sustainability solutions and services. With offices spanning all six continents, we strive to create a sustainable society and economy that positively impacts our climate, ecosystems and communities. With our solutions, we inspire and enable our customers to create value from sustainability-related activities.

To further promote environmentally and socially responsible practices, we are currently looking to recruit a highly motivated and dedicated.

Project Manager (100%) based in Bijing, China

South Pole Group develops high quality emission reduction projects under reputed carbon standards such as the CDM, VCS and the Gold Standard. The projects are typically developed in renewable energy, waste management, energy efficiency and fuel switch sectors leading to issuance of carbon credits. The projects need to comply with the requirements of the carbon standards and go through a third party audit before the carbon credits can be issued. Meanwhile, the company is also exploring the potential in new carbon markets.

Tasks and responsibilities

- You will develop all necessary project documents and monitoring systems as per CDM, GS, VCS or Chinese CCER rules. A good understanding of community based projects and sampling techniques is a plus.
- You will manage the validation and verification processes, including visiting project sites in China and other regions (Africa, Iran, etc.) independently.
- You will develop strong client relationships during project development process and build long term trust
- You will help sales team to find the suitable projects and do the negotiations. A good understanding of commercial terms is needed.

Your profile

- A university Masters degree in a relevant area (economy, energy, environment, finance etc) or an equivalent education
- At least minimum of 3 years practical experience on emission reduction project development, with good understanding of sustainable benefits for different types of projects
- Previous working or studying experiences in China and abroad
- Willingness to travel
- Excellent Chinese Mandarin speaker and good oral and written command of English is a must
- Experiences in developing CCER projects will be a plus

We offer

- Collaboration in a challenging and exciting global company with a real purpose
- Work with highly dedicated and motivated experts of south pole group's dynamic team
- Excellent team spirit

Please apply
