

Short-Term Advisory Contract

Job Description

The Company

Climate Friendly has offices in Sydney, Melbourne and The Hague and provides innovative climate change solutions to leading organisations around the globe.

T +61 2 9356 3600

F +61 2 8221 9895

Suite B Level 2 140 William St

Climate Friendly is an experienced and innovative developer of projects under the Australian Government's Carbon Farming Initiative (CFI), drawing on the expertise of our global partner South Pole Carbon, the world's largest developer of carbon finance projects.

Working with landowners and businesses, we have successfully developed projects across four project types including avoided deforestation, forest regeneration, savanna burning and waste diversion, making Climate Friendly one of the most diversified project originators in Australia. Supported by funding from the Australian Government, Climate Friendly has also developed a website that shares information on carbon farming called mycarbonfarming. More information is at www.mycarbonfarming.com.au.

The Role

This is a short-term contract for an experienced business analyst. The tasks include:

- Analyse CFI methodologies in the agriculture, vegetation management and, to a lesser extent, wastewater sectors.
- Analyse the sectors in which these methodologies can be applied, quantify expected abatement levels, quantify the market potential and identify specific project opportunities.
- Develop Due Diligence processes and Standard Operating Procedures to identify abatement levels for projects in targeted sectors.
- Apply Due Diligence and SOPs to an initial set of pilot opportunities.
- For those sectors or methodologies with significant scaling potential, develop estimates of project development costs. This process may lead to the development of a business plan.
- Preferably Sydney-based, but willing to consider other locations.
- 2-3 month contract

Climate Friendly Pty Ltd

Suite B, Level 2, 140 William St, East Sydney, NSW, 2011, Australia

T +61 2 9356 3600 F +61 2 8221 9895

ABN: 65 107 201 025

- Reporting to the Manager Australian Projects.
- Competitive package.

You

This is a challenging role that would suit a person with a combination of a good understanding of the Australian agricultural sector, solid analytical skills and commercial experience. You possess relevant tertiary qualifications, preferably in economics, agriculture, GIS, science or engineering. You must have at least three years of professional work experience in the carbon offset project cycle either as a project developer, auditor, Regulator or consultant.

In return you will be rewarded both financially and professionally. You will have the opportunity to work for a values-based company that has been operating successfully for twelve years, inspiring our customers to take action on climate change, whilst promoting a fun and flexible environment that encourages ideas, collaboration and high performance.

Interested parties should provide their CV to Ana Martinez (Carbon Farming Office Manager) by 12 September: ana.martinez@climatefriendly.com

Call Ana for more information on 02 8115 0005.
